

**DELAWARE TECHNICAL AND COMMUNITY COLLEGE
and
UNIVERSITY OF DELAWARE**

PROGRAM ARTICULATION AGREEMENT

**Associate Degree
Mathematics Secondary Education**

**Baccalaureate Degree
B. A. in Mathematical Sciences**

2012 through 2017

ASSOCIATE-BACCALAUREATE PROGRAM ARTICULATION AGREEMENT

between

**Delaware Technical and Community College
and
University of Delaware**

for

Mathematics Secondary Education/B. A. in Mathematical Sciences

AGREEMENT

WHEREAS Delaware Technical and Community College, and the University of Delaware are committed to expanding educational opportunities for the citizens of the State of Delaware, and

WHEREAS the two institutions are committed to providing a smooth transition for students wishing to earn an associate degree and a baccalaureate degree, and

WHEREAS the intent of the two institutions is to avoid duplication of curricula where appropriate within articulated programs of studies, and

WHEREAS the two institutions better serve the educational growth of students and the economic development of the community through cooperative educational planning and optimal utilization of community resources,

BE IT HEREWITH RESOLVED that this agreement commits the partners to full support of an articulation process between similar academic programs offered by the two institutions.

PROVISIONS OF THE AGREEMENT

1. This program articulation agreement applies to Delaware Tech's Associate Degree Program in Mathematics Secondary Education and the University of Delaware's Bachelor of Arts Program in Mathematical Sciences.
2. The institutions agree to follow the joint program curriculum and course by course articulation delineated in this document.
3. Both educational institutions will cooperate toward developing, disseminating, and presenting the articulated program information to students.
4. Graduates of the Delaware Tech program who have completed the associate degree with a cumulative grade point average of 2.5 or higher will automatically be accepted into the baccalaureate program at the University of Delaware. Those with a cumulative grade point average between 2.0 and 2.5 will be considered for admission on a space available basis.
5. All articulated course credits earned with a C or better will be accepted for transfer according to the program matrix. Articulated program courses with credits below a C must be repeated at the University of Delaware.
6. Students intending to transfer should complete the admissions application for the University of Delaware following the third semester of their associate degree program or upon completion of 48 credits.
7. Students are subject to all the policies and procedures of both institutions.
8. Students are subject to all specific policies pertaining to students admitted to the B. A. in Mathematical Sciences Degree Program.
9. This articulation agreement is based on the present curricula contained in this document and it is effective for a five-year period from 2012 to 2017.
10. Both institutions at any time may initiate changes to this articulation agreement. Both institutions reserve the right to modify the programs as deemed necessary and agree to inform the appropriate individuals of said changes. The senior institution will make good faith effort to honor the articulation agreement in effect at the time a student is admitted to the Mathematics Secondary Education Associate Degree Program.

<p>+It is recommended that students take SPA 137 and SPA 138 as post-associate degree courses in the third and fourth semesters at DTCC; otherwise, students must complete their language requirements at UD.</p> <p>[^]To satisfy the math elective requirement, students may also take MAT 291 Ordinary Diff. Equations as a post-associated degree course to transfer for UD's MATH 302 Ordinary Diff. Equations.</p>		<p>**Students should check with their UD advisor for group requirements and choices. Choose one course to satisfy the multicultural requirement.</p> <p>[^]Credits remaining are based on courses taken at DTCC. Students who take MAT 291 at DTCC may transfer the course for MATH 302 to meet a math elective requirement.</p>	
Total Credits	61	Total Credits	63
<ul style="list-style-type: none"> The Bachelor of Arts program at the University of Delaware requires a minimum of 124 credits, at least 79 of which must be outside of Mathematics. RDG 120, Critical Reading and Thinking, is a required DTCC course unless the student is exempt. Course sequencing may vary by semester. See your advisor. Initial placement and total credits required in foreign language depend on years of that language taken in high school; maximum of 12 credits required if student must start with 105 level. 			

APPROVAL

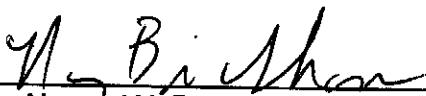

This program articulation agreement is between Delaware Technical and Community College's Associate of Arts in Teaching Degree in Mathematics Secondary Education and the University of Delaware's Bachelor of Arts Degree in Mathematical Sciences.

Approval is granted for a five-year term from 2012 through 2017 according to the terms of this agreement by:

Dr. Orlando J. George Jr., President
Delaware Technical and Community College

10/19/12
Date

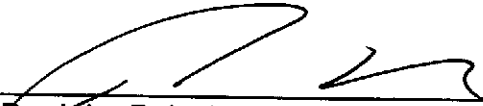

Dr. Nancy W. Brickhouse, Interim Provost
University of Delaware

10/5/12
Date

Dr. George H. Watson, Dean
College of Arts and Sciences
University of Delaware

9 Oct 2012
Date

Dr. John Pelesko, Chair
Department of Mathematical Sciences
University of Delaware

9/18/12
Date
